Now at a special price of 1,990 €

# smartGlasses

## Your step into the future

### And this is how it works:

By means of these special data glasses and an intelligent software application you as a customer are given the opportunity to **communicate very easily and bidirectionally** with the Leistritz service team. The glasses comprise a camera and microphone for video and audio transmission as well as a display which can **quickly visualize all instruction steps directly at the workplace**. Knowledge is shared cross-site in **real time**.

### Your advantages:

1

#### Faster service

In case you have problems with you pump, you will need **quick support**. By means of the smart-Glasses our technician is capable of overseeing and evaluating the current situation within only a few seconds.

2

#### Reduced service costs

By using the smartGlasses you can **reduce service costs of up to 70 %** (elimination of travelling costs).

3

#### Less downtimes

Every minute of downtime costs hard cash. With the use of smart-Glasses and augmented support application downtimes can be drastically decreased.

Order today at the special rate of 1,990 €!
