

## Decontamination Declaration for Returned Pumps and Components

For reasons stipulated by the legal guidelines and for the protection of our employees and production equipment, we require a decontamination declaration to be fully completed and signed. This decontamination declaration is to be made clearly visible and to be attached to the exterior of the packaging containing the return shipment, and an e-mail with the safety data sheet is to be sent in advance to [pumpservice@leistritz.com](mailto:pumpservice@leistritz.com). Please be aware that return shipments cannot be processed until a decontamination declaration has been received.

### 1. Description

Serial number: \_\_\_\_\_ Pump type: \_\_\_\_\_

Your order/reference number: \_\_\_\_\_

### 2. Operating data

Fluid pumped: \_\_\_\_\_

Viscosity: \_\_\_\_\_ [mm<sup>2</sup>/s]      Pressure difference: \_\_\_\_\_ [bar]      Operating temperature: \_\_\_\_\_ [°C]

**It is standard procedure to include the current safety data sheet and, where required, a document detailing special handling/cleaning guidelines for the medium being pumped. In the case of the delivery of a cleaned pump, the safety data sheet for the cleaning product should additionally be included.**

### 3. Reason for the returned shipment

\_\_\_\_\_  
\_\_\_\_\_

### 4. Condition

Please send back the pump/component in its cleaned state to us and confirm that it is harmless in its delivered condition.

- Did the pump/component come into contact with the medium to be pumped?     YES     NO

- Has the pump/component been cleaned, and is it free of harmful substances?

YES - continue to Point 6

NO - continue to Point 5

### 5. What from does the contamination take?

- Toxic                     YES     NO

- Etching                     YES     NO

- Explosive                 YES     NO

- Microbiological             YES     NO

- Radioactive             YES     NO

- Other dangerous substances     YES     NO

**We do not accept return shipments of pumps/components which have been subjected to a radioactive or a microbiological hazard and that have not been professionally decontaminated.**

- Does the handling of the returned pump/components specify a compulsory requirement for protective equipment for the personnel involved?

YES (if yes, which?) \_\_\_\_\_

NO

### 6. Technical contact person for enquiries

Contact person: \_\_\_\_\_ Company: \_\_\_\_\_

e-mail: \_\_\_\_\_ Tel. no.: \_\_\_\_\_

### 7. Legally binding declaration

We hereby confirm that this declaration has been completed truthfully and in full, to the very best of our knowledge. The delivery complies with all the respective laws in force regarding the packing, shipment and labelling of hazardous substances. The sender is liable for all damage caused by the returned object as a result of non-labelled contaminants.
